Two change parts are required for each size of Window Patch: a Patch Gummer and a Patch Section Plate.

Gummers are made to suit the patch and window opening. They can also be purchased solid and cut to suit. There are two stock sizes:  $1\frac{1}{8}" \times 5\frac{3}{4}"$ ;  $3" \times 6\frac{3}{4}"$ .

Patches in widths above 6" can be run with special equipment.

$8\frac{1}{2}"$  minimum envelope Blank width.  
 $5\frac{1}{2}"$  minimum width on special order.
