

ARISTOMAT Serie

# ARISTO Plotbridge

**User Manual**

Version 4.16

## Contents

<b>What does ARISTO Plotbridge do?.....</b>	<b>5</b>
Feature Summary.....	6
<b>Getting Started .....</b>	<b>8</b>
Installing Plotbridge .....	8
CAD Designing for Plotbridge .....	9
<b>A Short Tour of ARISTO Plotbridge .....</b>	<b>11</b>
The Plot Preview Window .....	11
Getting Help.....	13
Loading and Converting a DXF File .....	13
Assigning Lines to Different Tools .....	14
Zooming .....	15
Shifting the Drawing's Position on the table .....	16
Job Setups .....	17
Polishing your Plot .....	18
Optimizing .....	18
Circles and Arcs .....	19
Smoothing .....	19
Joining Ends .....	21
Starting a Plot.....	21
Restarting a Plot .....	22
Using Frames .....	23
<b>File Conversion .....</b>	<b>26</b>
File Formats.....	26
DXF Files.....	26
HPGL Files .....	27
VectorWorks Script Files .....	27
File Conversion Problems .....	28
The Drawing is Too Big or Too Small .....	28
Different colours are present in the DXF file than were expected.....	28
Non-standard Colours are found in the DXF file .....	30
Checking for Problems .....	30

<b>Saving and Loading Setups .....</b>	<b>31</b>
Loading a Saved Setup .....	31
<b>Plotbridge Menus .....</b>	<b>33</b>
The File Menu .....	33
The Screen Menu .....	34
The Setup Menu .....	36
The Help Menu .....	36
<b>Controlling Plotbridge .....</b>	<b>37</b>
File Conversion Dialog .....	37
File Conversion Options .....	38
Drawing Scale .....	38
Tool Associations .....	38
Colour Remapping .....	40
Preserving Offsets in the Original Drawing .....	40
Plotting Table Setup .....	41
Setting the Screen Colours .....	42
The Plotting Boundaries .....	42
Plotting Output Setup .....	44
Tidying up your drawings with Snap, Close Polygons and Optimize .....	45
Using Arc Conversion .....	46
Maximum Segment Size (Max. Seg. Size) .....	47
Maximum Error (Max. Error) .....	47
Break Angle .....	49
Fit to Tangents First .....	49
Machine Speeds/Variables Setup .....	49
Tool Speeds .....	50
Machine Variables .....	50
Machine Type Setup .....	51
Changing Machine Drivers .....	52
Serial Port Settings .....	53
Machine Calibration .....	53
Adjusting Tool Offset Values .....	55
The Plot Dialog .....	56
Using File Watch Mode .....	58
Running File Watch Automatically .....	59
<b>ARISTO Plotbridge Registration .....</b>	<b>60</b>
