MIN 1 WEEK HIRE

The solar loo is the only fully flushing standalone toilet available that is powered entirely by patented solar technology.

Equipped with flushing W.C and urinal, hot air hand dryer, hot and cold running water and lighting, the generator free unit requires very little maintenance, reduces Co2 emissions and cuts fuel bills drastically.

Key Features:

- Secure steel construction
- Solar powered, generator free unit
- Seating/ changing area
- Highly efficient
- Low in Co2 emissions

Optional Extras Available

Garic i-SITE Technology
