

WIREBIND EKARO 40 PRO

A fully featured, semi professional wire binding machine.

4400101

Overview

A fully featured, robust aluminium wire binding machine capable of punching up to 12,000 sheets per hour.

Description

Produce stylish documents that can lie flat or even be turned 360° with this robust yet easy to use, aluminium EKaro 40PRO electric wire binding machine. Documents are permanently bound with metal wires for additional security that create a neat and professional appearance for long lasting documents. If you bind documents on a regular basis, the Karo E 40PRO is the best choice as it will punch up to 12,000 sheets per hour effortlessly with the electric punch.

The GBC Karo E40PRO is an electric wire binding machine that is ideal for constant usage with a punch capacity of 15 sheets of 80gsm paper and binding capacity of up to 125 sheets of 80gsm paper using 14mm wires. Using the machine couldn't be easier with a handy document size guide that assists you in choosing the correct wire size and a paper edge guide to ensure accurate alignment along the paper length. There are 40 de-selector pins that allow you to select your choice of paper sizes including A4, A5, US Letter and Quarto.

Featuring an adjustable margin depth to suit your binding requirements and an easy access, high volume clippings tray to ensure a no mess binding solution.

The solid metal construction provides longer life and durability. Weighing 25.8kg and sized at 190(H) x 420(W) x 305(D)mm, this machine is a permanent, user friendly addition to any office.
