

Heatseal™ Proseries 3500LM Laminator

Guarantees superb results

1700330

Overview

An A3 plus model specifically designed with integrated cooling fans and multiple speed/temperature settings (6/5). For those who need a lamination system that guarantees superb results across the complete cross-section of modern materials – photos, colour copies, laser prints, high density litho prints and even digitally printed materials. The combination of technology and experience in other laminating fields, has created in the 3500 the ability to laminate in all film grades – with or without protective Carriers – from the super light 37.5 Micron Pro-Film to super heavy 300 Micron plus the entire range of High Speed Pouches.
