

# ASML Semiconductor Equipment Parts Inventory

High-quality ASML semiconductor parts available for immediate sale. All components are tested (where applicable) and maintained in good working condition. Ideal for OEM replacement, refurbishment, or spare inventory.

## Key Highlights:

- Large inventory of ASML OEM parts
- Includes circuit boards, power modules, robotics, and optical systems
- Many items in cleanroom-sealed condition
- Suitable for Twinscan and related systems
- Ready for immediate shipment

OEM Part Number	Description	Condition
4022.471.63636	Circuit Board PCB	Good
4022.471.63637	Generic Power Amp PPCA	Good
4022.470.64692	Indicator Processor VME PCB Card	Good
4022.470.78941	Power Core 6750 Board	Good
4022.471.64181	Shutter Booster Card	Good
4022.664.12472	Prodrive MCCB-2 Circuit Board	Good
4022.670.66683	MVME 2431 PMC Module	Good
4022.470.88221	Circuit Board HIB 186	Good
4022.472.06562	Main Module CPU Board	Good
4022.436.43072	Kniel Voltage Module	Good
4022.430.14781	Power Module	Good
4022.480.0062	Vacuum Stage	Good
4022.470.0030	Wafer Handler Robotic Rack	Good
4022.631.1584	Optical Gas Analyzer	Good
4022.471.4648	Robot Interface Card	Good
4022.437.3004	DC Power Supply	Good
4022.471.61775	Pro Drive PADC 65/13	Good

## Additional Information:

- Condition: Most units are in good working condition unless otherwise stated
- Environment: Several items are cleanroom sealed
- Voltage Modules: Typically 115/230V input, 45–440Hz
- Application: Semiconductor lithography systems (ASML Twinscan compatible)
- Availability: In stock and ready to ship
