TAGOUT/LOCKOUT PROCEDURE

1. Power the system down.
2. Place the Main circuit breaker in the OFF position.
3. Insert the locking device "ears" in the holes on the circuit breaker body above the ON/OFF lever by pulling the yellow cover to allow free motion of the metal "ears".
4. Push the yellow plastic cover back into place.
5. Place the lock provided in the kit on the opening in the locking device.
