VIPER MINI SIZER

The Viper Mini Sizer is a mobile screening machine capable of handling all types of material up to 40 cubic metres per hour.

OPTIONAL EXTRAS

The Mini Sizer options include the following. Trailer and hydraulic jacklegs for quick loading and unloading. Electro hydraulic power unit. Height extensions, to raise machine and chutes to feed conveyors.

SCREEN BOX

Two Deck, 2 Bearing 1.5m x 1.5m (5ft x 5ft) screen box giving a 3 way split of material. Both top and bottom decks are end tensioned and easily accessible. Woven meshes are normally fitted on the top deck and harp wires or elongated meshes on the bottom deck. The screen angle is fixed at 17°.

POWER UNIT

Unit fitted with a 6.4 Kw (8.5 HP) single cylinder air-cooled diesel Kubota engine. A single hydraulic pump drives the screen box through a hydraulic motor. A single acting valve operates the screen, manually operated. Engine is electric start. Lockable door on all panels of the power unit.

LOADING / REMOVING MATERIAL

The loading width is 3 metres allowing for loading with an excavator or up to 2.8m wide loading shovel, from the rear. All oversize material is collected at the front of the machine, all undersize is collected from the rear, beneath the screenbox.
