

FINGERSCREENER

125T

DESCRIPTION

The Erin *FINGERSCREENER 125T* is a heavy-duty, compact, track-mounted mobile screening machine designed for the roughest screening applications such as construction & demolition (C & D) waste, rough topsoil, stumps, landfill materials, contaminated soil, skip waste and quarry spoils. The *FINGERSCREENER 125T* is fully remote controlled and sets up in less than 2 minutes. The 12' long x 5' wide (3.7 m x 1.5 m) direct-feed screenbox combines self-cleaning top deck Grizzly™ Fingers and bottom deck Cascade™ Fingers ensuring no clogging—even in the nastiest wet conditions. Durability, productivity and complete mobility are what makes the Erin *FINGERSCREENER 125T* the ultimate screening machine.

SCREENING SOLUTIONS AND MORE...

Erin Systems is also recognized as the industry leader in innovative mobile and fixed screening systems, featuring its leading edge *STARSCREENER* and *FINGERSCREENER* technologies. Erin Systems also provides engineered to order, fully integrated, C & D recycling systems.

BENEFITS

- 70% longer screenbox than any other direct-load screen
- Highly versatile and compact
- Robust, heavy-duty machine
- Aggressive screening action
- Remote controlled track system
- Direct loading to eliminate clogging problems with bulky materials
- Ability to capture middles fraction

SPECIFICATIONS

TRAVEL CONFIGURATION

	U.S. Standard
Length:	29' 8"
Width:	8' 0"
Height:	11' 2"
Weight (approx.):	35 250 lb

WORKING CONFIGURATION

Screenbox:	12' long x 5' wide
Fines stockpiling height (min./max.):	12' to 15' 6"
Conveyor:	54" wide
Loading height (min./max.):	12' 6" to 13' 8"
Diesel engine:	73 hp

OPTIONS

- On-board middles stacker
- Bottom deck finger or mesh screens
- In-line overs sorting belt
