### SR514 TRACKED SCREENER

#### THE ANACONDA SR RANGE OF MOBILE SCREENS HAS BEEN DESIGNED TO SUIT FINE SCREENING APPLICATIONS

The SR514 tracked screener is a screening and stockpiling unit that has been primarily designed for the sand & gravel, coal and aggregate markets and can be loaded directly with a shovel/excavator or from the belt of a crusher.

The SR514 is robust and economical to run and can screen/stockpile 4 products at up to 350 TPH. The SR514 has a 14 x 5 triple or double deck screen, a 14ft feed hopper, main conveyor and either 3 or 4 hydraulically folding stockpiling conveyors. The screen is very easy to set up and can be running within 20 minutes with hydraulic controls to aid the setting of all conveyors, screen box and landing legs.
