COMPOST TURNERS

A PROVEN LEADER in Turners for OVER A DECADE

- **TURN**
- **AERATE**
- **FLUFF**
- **PULVERIZE**
- **BLEND**

HAVE YOU COUNTED THE COST OF YOUR LANDFILL OPERATION?

Wildcat COMPOST TURNERS

THE PROFITABLE ALTERNATIVE TO MORE AND BIGGER LANDFILL AREAS.

MINIMIZES LANDFILL SPACE REQUIREMENTS

By composting city wastes, many communities have reduced their cost of landfill acquisitions by reducing land space needed. In addition, proper composting helps prepare landfills for post-landfill use. As populations expand, nearby available landfill areas must rely on composting to reduce increased volumes and cost.

SAVE DOLLARS - You purchase only the compost turner and use your own prime mover.

COST EFFECTIVE - Compost in less time and save your landfill areas.

DURABLE - Less moving parts, extra heavy duty flails.

REDUCES WASTE VOLUME BY 50%

The Wildcat compost turner is a unit that will convert sludge, leaves and other organic wastes to valuable compost and fertilizer, quickly. Up to 2600 tons an hour with a single operator. No shredder is needed. The Wildcat composter does it all.

DEPENDABLE - Wildcat has been manufacturing compost turners for over a decade.

ONE MAN OPERATION - Long life features and less man hours make Wildcat a profitable investment.

A SIZE TO MEET YOUR NEEDS - 14 models available from 100 TPH to 2600 TPH. Will handle windrows up to 6' high and 18' wide.

Wildcat COMPOST TURNERS for:

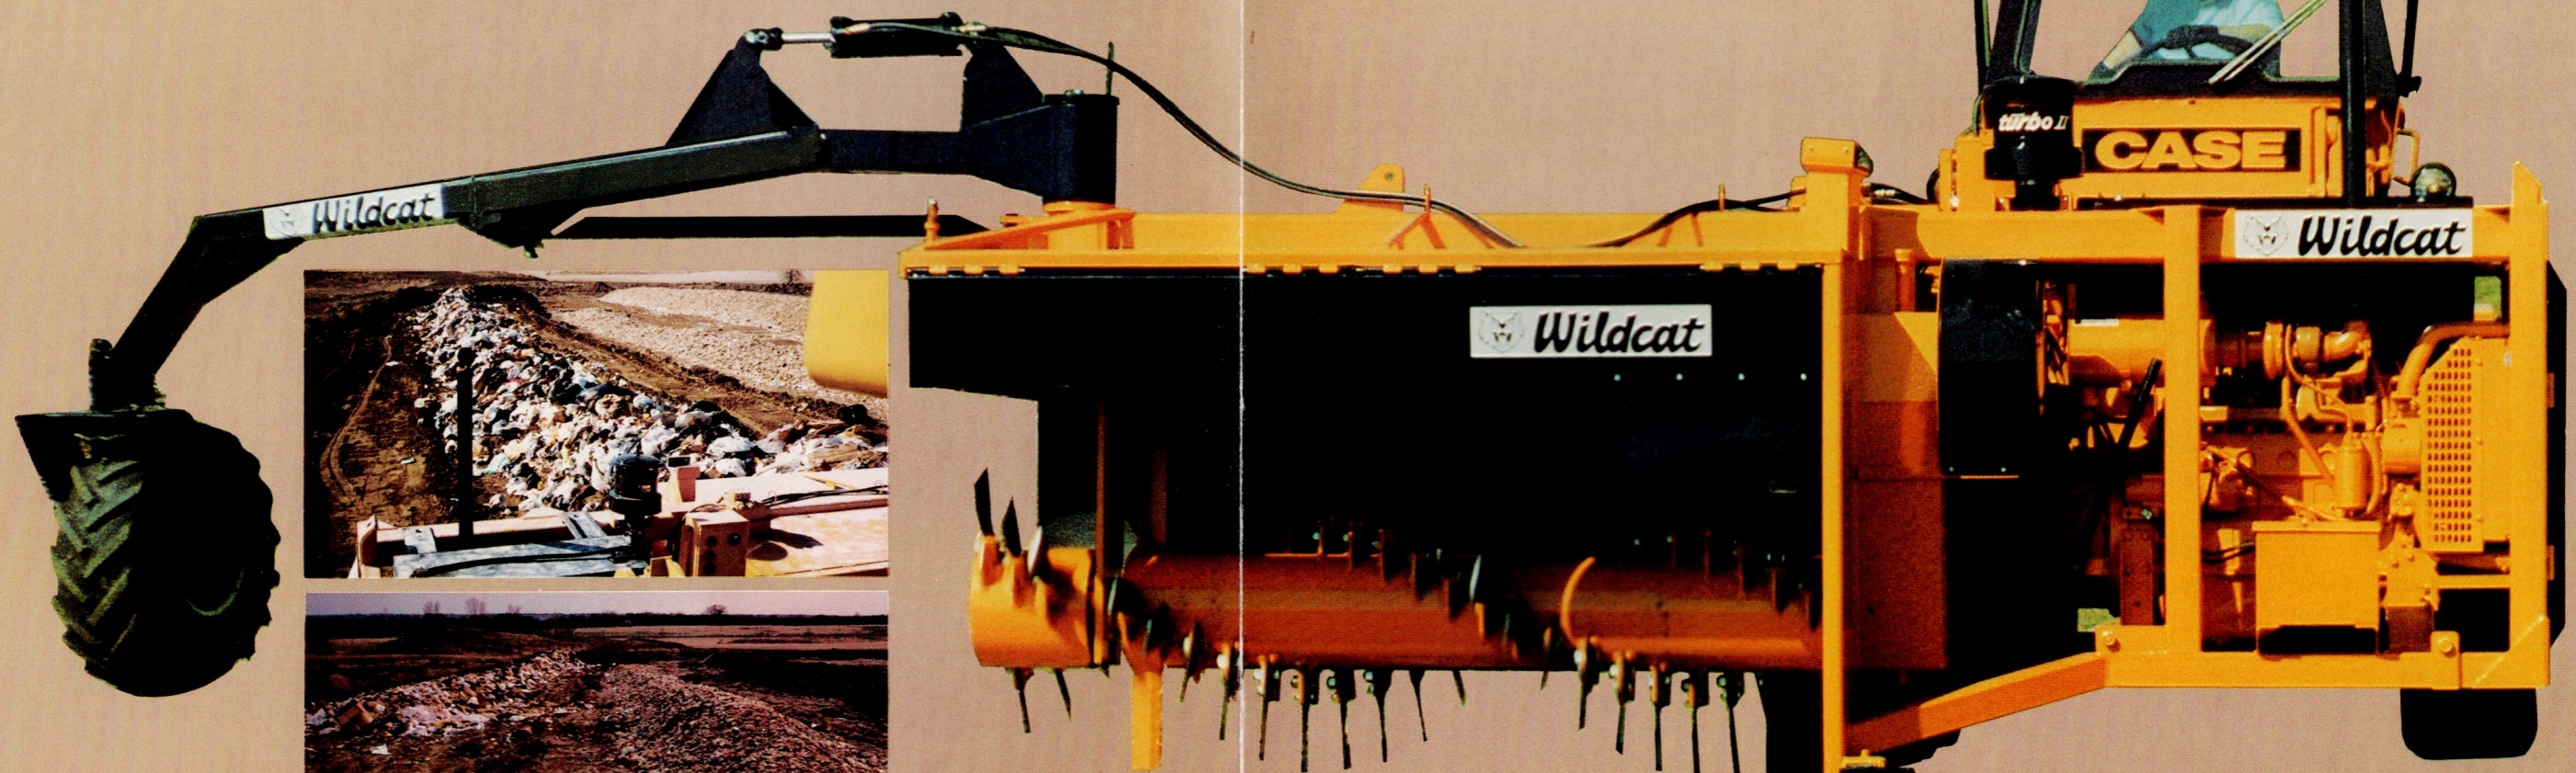

- LEAVES
- SLUDGE
- FOOD INDUSTRY BY PRODUCTS
- HORSE STABLE WASTE
- LIVESTOCK MANURE

The efficient, simple design of the WILDCAT COMPOSTER has made it the PROVEN LEADER! with units in use throughout the U.S., Canada, Mexico and France.
