## COMPOST TURNERS

WORLD'S LARGEST MANUFACTURER OF COMPOST TURNERS

- **TURN**
- **AERATE**
- **FLUFF**
- **PULVERIZE**
- **BLEND**

IS YOUR COMPOSTING OPERATION  
AS EFFICIENT AS IT COULD BE???

COULD THE QUALITY OF YOUR  
FINISHED PRODUCT BE BETTER???

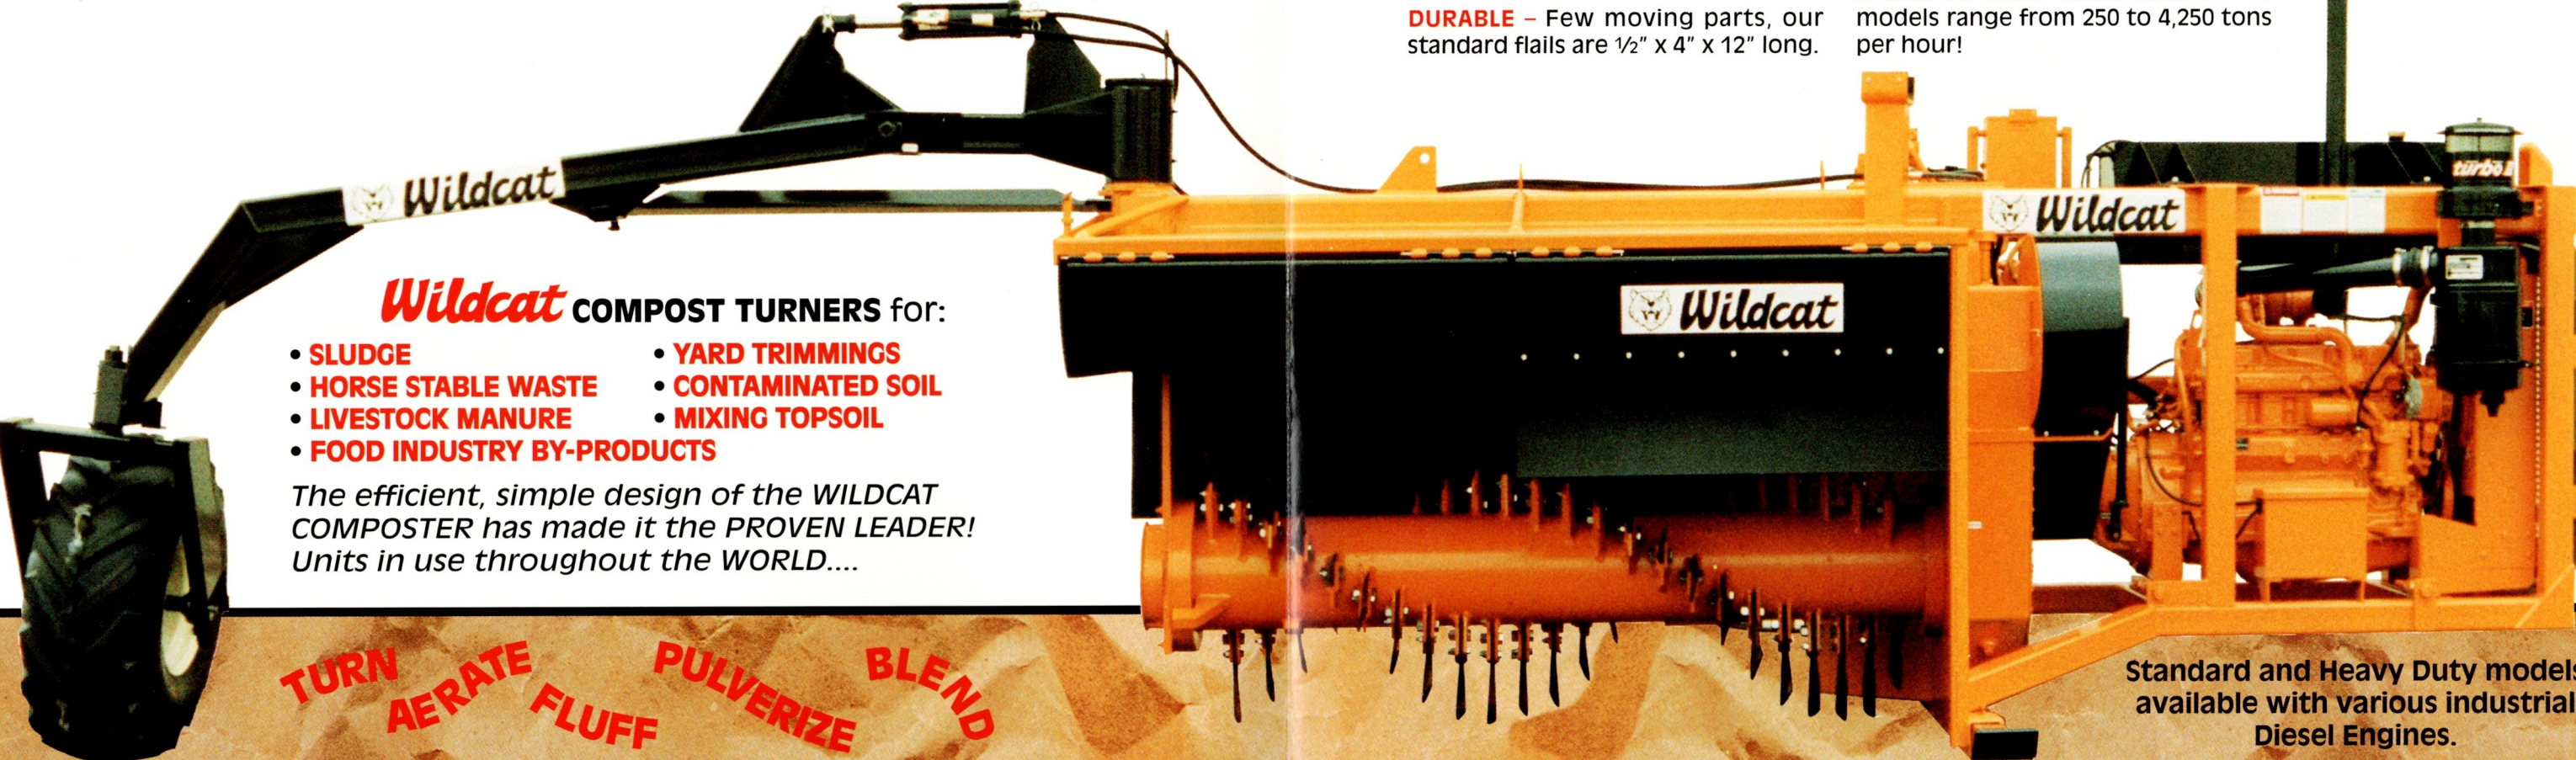

# Wildcat COMPOST TURNERS

**✓ PRODUCE A QUALITY SOIL AMENDMENT**  
Composting is a manufacturing process; invest in a composter that's proven its value at over 500 sites world-wide. With most material no grinding is needed. Turn 4,250 tons per hour with one operator.

**✓ MEET YOUR RECYCLING GOALS**  
Composting of yard trimmings can result in reducing waste going to the landfill by 25% and you will gain a usable product as a result. If other sources of material are utilized nearly 45% of the waste stream can easily be composted.

THE CHOICE OF MORE SITE  
MANAGERS THAN ALL OTHER  
MANUFACTURERS COMBINED.

**Wildcat COMPOST TURNERS for:**

- SLUDGE
- HORSE STABLE WASTE
- LIVESTOCK MANURE
- FOOD INDUSTRY BY-PRODUCTS
- YARD TRIMMINGS
- CONTAMINATED SOIL
- MIXING TOPSOIL

*The efficient, simple design of the WILDCAT COMPOSTER has made it the PROVEN LEADER! Units in use throughout the WORLD....*

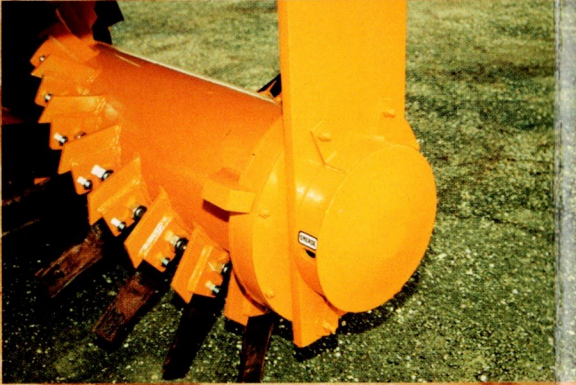

TURN  
AERATE  
FLUFF  
PULVERIZE  
BLEND

Standard and Heavy Duty models  
available with various industrial  
Diesel Engines.

1st reduction  
is belt drive

2nd reduction  
is chain drive  
enclosed in oil  
reservoir.

Unique sealed  
drum design  
protects bearings  
from materials,  
extending  
bearing life.

Easily  
transported  
from site  
to site.

## TROMMEL SCREENING PLANTS

**TOP SOIL • MULCH • COMPOST • WOOD CHIPS • YARD WASTE • LANDFILL MATERIAL**  
MODEL RHC 5-140

Wildcat Trommel Screens are available in many sizes for mobile or stationary applications with electric or hydraulic drives. Wildcat's aggressive drag link conveyor assures a constant flow of material. Self cleaning brushes keep screens open for maximum efficiency.

MODEL RHC 6-160 L

Wildcat's hoppers will feed day in and day out without bridging. Wildcat offers you the choice between attached conveyors or separate stacking conveyors or both! Wildcat will also build a machine customized to fit your needs.

## OTHER Wildcat PRODUCTS

### INDUSTRIAL SNOWBLOWERS

- Greater Balance and Durability - Position of the engine behind the blower provides better displacement of the weight for greater strength and stability.
- High Visibility, Low Profile
- Ease of Operation
- Spiral Feeding and Chopping System
- New Helical Ribbon Fan Design

### ROADPATCHER

- Safety - limited exposure of personnel to oncoming traffic.
- One man crew for reduced labor costs.
- One truck operation eliminates plant mix, tack coat and compaction equipment.
- Bottom up compaction produces dense permanent repairs.
- Aggregate and asphalt capacities allow full-day operation.
- Shoulder maintenance - to allow gradual slopes and prevent under cutting of pavement.
