

A TROMMEL THAT'S PRACTICAL, PORTABLE AND ECONOMICAL

TROMAX 6012

Another Valuable Addition to Our Recycling Product Line

DURATECH INDUSTRIES, known for state-of-the-art recycling equipment, is pleased to offer an economical, yet functional Trommel Screen — **TROMAX 6012**.

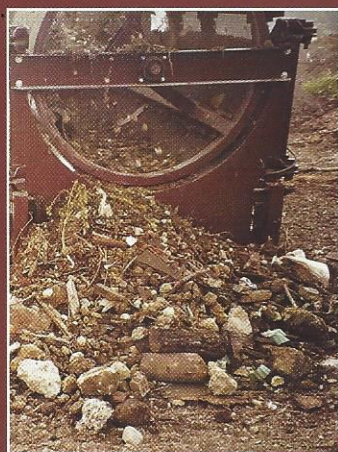

DURATECH has engineered the **TROMAX** product line to provide the optimum equipment to the many users who need screens without the high capital investment. **TROMAX** is an excellent "Partner" to the many **DURATECH HD** series tub grinders already in action to assure emptier landfills and cleaner skies for everyone.

DURATECH . . . Clearing the way for a better tomorrow.

TROMAX 6012

The Tromax 6012 can process 75 yards or more of selected material per hour. Made to be portable, this small trommel can be moved easily by a pickup truck. An ideal unit for simple applications and for the small operator who wants to manufacture their own compost. Most important, the Tromax 6012 is very affordable, offering an option where cost has previously been an obstacle for purchasing equipment. Ideally used for organic recycled material, the Tromax 6012 can also process other materials such as sand and light gravel.
