

FINGERSCREENER 165

DESCRIPTION

The Erin FINGERSCREENER 165 is an extreme mobile screening machine, designed for screening the roughest infeed materials such as stumps, C&D, landfill debris, contaminated soil, wood waste, and rough topsoil. Its aggressive screenbox action, 16' length, two decks of self-cleaning finger screens, and substantial on-board stackers make it the largest and most versatile producer in the toughest of applications.

SCREENING SOLUTIONS AND MORE...

Erin Systems is recognized as the industry leader in innovative mobile and fixed screening systems, featuring its leading edge FINGERSCREENER and STARSCREENER technology in a wide variety of mobile and engineered to order screening systems. In addition to screening and sizing equipment, Erin provides a full range of recycling equipment including picking stations, sorting equipment, hammer mills, and stacking conveyors.

BENEFITS

- High production and clean separation
- Highly mobile (quick setup) and fully road legal
- Substantial on-board fines and reject stackers
- Low maintenance (few moving parts) and low screen wear
- Ability to capture middles fraction and power middles stockpiler
- All North American parts standard
- No clogging or bridging

SPECIFICATIONS

	U.S. Standard	Metric
TRAVEL		
Length:	39' 4"	12 m
Width:	8' 3"	2.5 m
Height:	13' 1"	3.96 m
Weight (approx.):	43,000 lbs.	19,500 kg
WORKING		
Fines stockpiling height (minimum):	10' 11"	3.32 m
Fines stockpiling height (maximum):	15' 0"	4.57 m
Reject stockpiling height (minimum):	12' 3"	3.73 m
Reject stockpiling height (maximum):	15' 5"	4.70 m
Loading height:	11' 3"	3.43 m
Engine:	4 cylinder, 70 HP Caterpillar diesel	4 cylinder, 52 KW Caterpillar diesel

OPTIONS

- Middles fraction recovery system with large or small fraction
- Engine: 4 cylinder, 108 HP Caterpillar Turbo diesel (80.6 KW)
- Fingers or mesh screen systems
- Inline picking table/C&D sorting systems
- Inline starscreening system
