

R230 SCREENER

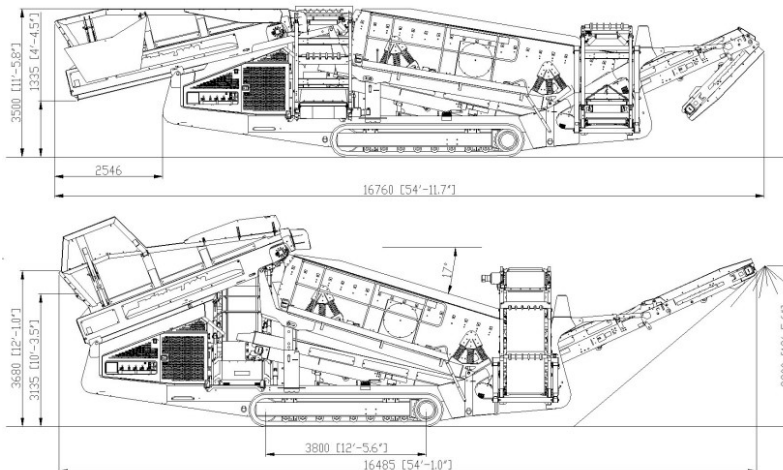

The McCloskey® R230 High Energy Screener is one of the most robust, durable and powerful heavy-duty mobile screeners at work around the world today. McCloskey International's powerful High Energy Screener delivers higher outputs and a high-quality screened product with maximum efficiency.

FEATURES

- ✓ 6.1m x 8.3m (20'x6') heavy duty high energy 2 bearing screenbox
- ✓ 168 kW (227Hp) diesel engine
- ✓ Direct feed Hardox® lined hopper
- ✓ Travel out fixed walkways
- ✓ Integrated hydraulic folding stockpiling conveyors
- ✓ Fast on site setup time – 10 minutes
- ✓ Screen raises at lower end for easy bottom deck access
- ✓ Service standing room inside Powerpack
- ✓ Track mobile

Designed to provide uncompromising production levels to heavy duty scalping operations, the R230 is capable of operating as a stand-alone plant producing finished product, or as a primary scalping component to the very largest of portable crushing spreads. The rugged and reliable screener has proven to be extremely effective across a wide range of applications like site reclamation, construction and demolition waste, and working with difficult materials such as heavy rock, sticky fines, and boulder clay.

TECH SPECS
