# WASTE WIZARD 120

## SINK/FLOAT DENSITY SEPARATOR

- 6-1/2 cu.yd tank
- 4" Max feed size (3/8" to 4")
- 48" x 16'-5" incline conveyor (for heavy material)
- 9'-3" discharge height (heavy)
- 6'-6" discharge height (light)
- Silt removal screw conveyors
- Quick release cleaning doors

The Waste Wizard 120 uses a "sink/float" system to separate light density material such as plastic, paper, wood, and foam from heavy materials like aggregates and recycled building material.

**Transportation Dimensions:**  
Length: 23'-9" Width: 7'-5"  
Height: 10'-7" Weight: 13,228 lbs
