Capacities may vary depending on type of material, gradation of material, feed method, moisture, bulk density, clay content and fracture characteristics for the material.

Les capacités dépendent du type, de la classification, mode d'alimentation, du taux d'humidité, de la densité de déchargement et de la quotité de la glaise et peuvent donc varier.

Die Produktionsmengen sind abhängig von Aufgabegut, Klassierung, Aufgabeart, Feuchtigkeitsgehalt, Schüttdichte, Lehmantel und können daher schwanken.

Las capacidades dependen de tipo de carga, clasificación, modo de alimentación, grado de humedad, densidad de la carga, cantidad de arcilla y pueden variar.

Le capacità dipendono dal tipo del materiale, classificazione, modo di alimentazione, grado di umidità, densità in mucchio e percentuale di argilla e possono variare.

Key Features

- ▶ Rapid set-up time
- ▶ High throughput and large reduction ratio
- ▶ Full galvanised access platforms around crushing chamber and powerunit
- ▶ Grizzly feeder with integrated pre-screen
- ▶ Selectable discharge to by-pass conveyor or main conveyor
- ▶ Two speed tracks with 'soft start'
- ▶ Full remote control (option)

Caractéristiques

- ▶ Mise en service rapide
- ▶ Production élevée et fort pourcentage de réduction
- ▶ Passerelles entièrement galvanisées autour du concasseur et du moteur
- ▶ Alimentateur vibrant avec pré-criblage des stériles
- ▶ By pass réglable vers le convoyeur latérale ou le tapis des concassés
- ▶ Deux vitesses de chenilles avec démarrage progressif
- ▶ Télécommande (option)

- ▶ Standard tracked unit on low loader
- ▶ Version standard sur chenilles transportable sur porte engin
- ▶ Standard Tiefladertransport
- ▶ Unidad de la oruga standard sobre góndola
- ▶ Versione su cingoli (standard) sul semirimorchio

- ◀ Optional wheeled and tracked bogie arrangement
- ◀ Option : Version chenilles avec dolly amovible
- ◀ Dolly Transportsystem (optional)
- ◀ Opcional el carrillo de ruedas y orugas
- ◀ Versione gommata e su cingoli con assale bogie (optional)

Besonderheiten:

- ▶ Kurze Aufrüstzeiten
- ▶ Hohe Durchsatzleistung mit grossem Zerkleinerungsgrad
- ▶ Verzinkte Arbeitsbühnen rund um den Brecher und Motor
- ▶ GRIZZLY Aufgeber mit integriertem Vorsieb
- ▶ Seitenaustragsband für Vorsiebmaterial
- ▶ Raupenfahrwerk mit Sanft-Start und zwei Fahrstufen
- ▶ Anlage funkferngesteuerung (optional)

Traducciones

- ▶ Tiempo de montaje rápido.
- ▶ Alto rendimiento y proporción de reducción grande
- ▶ Plataformas de acceso completamente galvanizadas alrededor de la cámara de trituración y la unidad de potencia.
- ▶ Alimentador Grizzly con pre- cribado integrado.
- ▶ Descarga seleccionada para la cinta de by- pass o cinta principal.
- ▶ 2 velocidades de orugas con " arranque suave "
- ▶ Mando a distancia completo (opcional)

Specifiche generali

- ▶ Rapidità di installazione e set up
- ▶ Elevata capacità produttiva con eccellente riduzione
- ▶ Ampio piano di accesso e lavoro in acciaio zincato intorno a frantoio e motore.
- ▶ Alimentatore grizzly con pre-vaglio integrato
- ▶ By-pass fini naturali con scarico selezionabile tra nastro laterale o nastro principale
- ▶ Traslazione a due velocità con soft-start
- ▶ Totalmente controllabile da radiocomando

- ▶ Advanced Electronic control system
- ▶ Système de contrôle électronique avancé
- ▶ Elektronisches Überwachungssystem
- ▶ Sistema de control avanzado electrónico
- ▶ Avanzata tecnologia elettronica di Controllo programmabile da display

Jaw Crusher J-1175

Jaw Chamber

- ▲ 42" x 30" (1070 x 762mm) Single Toggle
- ▲ Hydrostatic drive
- ▲ Reversible action for clearing blockages
- ▲ Hydraulically adjustable Closed side setting

Concasseur

- ▲ Concasseur simple effet d'ouverture 1070 x 762 mm
- ▲ Entraînement hydrostatique
- ▲ Déburrage facilité par rotation réversible
- ▲ Réglage hydraulique des mâchoires

Brechhammer

- ◀ 1070 mm x 762
Einschwinger
Backenbrecher
- ◀ Hydrostatischer Antrieb
- ◀ Vor- und rückwärtslaufender
Backenbrecher

Camara de Mandibulas

- ◀ (1070 x 762 mm) Un fusible
- ◀ Accionamiento hidro -
estático.
- ◀ Acción reversible para
limpiar obstrucciones
- ◀ hidráulicamente ajustable.

Frantoio

- ◀ 1070 x 762 a singola
ginocchiera
- ◀ Trasmissione Idrostatica
- ◀ Reversibile
- ◀ Regolazione idraulica
dell'apertura
- ◀ Mascella lunga

Technical Specifications

Hopper capacity:	9m ³ (11.7yd ³)
Jaw inlet opening:	1070 x 762mm (42" x 30")
Engine type:	CAT C9, power rating 261kW @ 1900 rpm (350HP)
Product conveyor:	1000mm (40") 3 Ply Grade X
By-pass conveyor:	650mm (26") 3 Ply
Portability:	Track mounted
Weight:	52 tonnes (57.2 US) Fully loaded

J-1175 Jaw Crusher in Working Position

J-1175 Jaw Crusher in Transport Position

J-1175 Working Position

A:	15.7m	51' 8"
B:	3.94m	12' 11"
C:	3.6m	12'
Width:	4.26m	14'

J-1175 Transport Position

A:	14.5m	47' 8"
B:	3.49m	11' 6"
Width:	2.9m	9' 6"

J-1175 Transport Position with wheeled bogie

Length:	14.5m	47' 8"
Height:	3.8m	12' 6"
Width:	2.9m	9' 6"
