

The most powerful for
demanding applications

T7

T7 Trommel Screen

The T7 is the most powerful mobile trommel screen in the Terra Select product range and delivers impressive throughput. Its large screening area enables it to successfully handle materials that are very difficult to screen, such as wet compost. The large trommel and its long screening path are ideally suited for screening a wide variety of waste.

- With an effective screening area of approximately 495 sq. ft., the Terra Select T7 achieves screening capacities of up to 327 cubic yards per hour.
- The trommel is 24'-7" long and 7'-3" in diameter.

Key features: Impressive screening area, large feed hopper, and generous trommel inlet opening.

Technical Specifications

Trommel length	24'-7"
Trommel diameter	7'-3"
Effective screening area	495 sq.ft
Drive power	101HP
Fuel capacity	79 gallons
Fines belt length	23'-7"
Fines belt width	3'-3"
Oversize belt length	16'-1"
Oversize belt width	3'-3"
Hopper	More than 8.5 cu.yd
Width	13'-9"
Depth	5'-11"
Permissible total weight	48,502 lbs
